

# Production Specifications—Denver

Production: 970.266.0979, ext. 4093

## Bus Shelter

FINAL Trim Size (w x h)	Live Area
47.5" x 68.25"	44.5" x 65.25"

### Printing Methods:

UV resistant ink or a similar outdoor-durable ink\*

**DO NOT LAMINATE. Laminated posters are unusable.**

### Substrates:

Outdoor durable, wet-strength paper or backlit film

**6 mil or more**

The following products cannot be used:

- Polyethylene and Polystyrene as they tend to shrink and wrinkle.
- Vinyl Products also wrinkle and become jammed in the structures.

## Bus Bench and Full House Back Panel

### Printing Methods:

**Laminate with MATTE OVERLAMINATE**

Must be printed in one piece.

Do not panel or tile the image when printing.

Ads are mounted to Lexan sheets in one piece.

### Substrates:

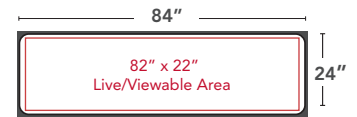

Vinyl substrate with an adhesive backing\*

**3.2 mil or more**

\*Please call regarding additional substrates.

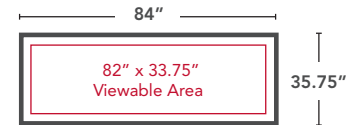

### Bus Bench

FINAL Trim Size (w x h)	Live Area
84" x 24"	82" x 22"

### Full House Back Panel

FINAL Trim Size (w x h)	Live Area
84" x 35.75"	82" x 33.75"

## Size Variations and Quantity

Variations up to 1/8 inch are allowable.

Variations greater than 1/8 inch may require additional preparation time/expense or be unusable.

If possible, a 15 – 20 % overage is highly recommended.
